

Kalam: Creativity leads to thinking

Bengaluru: "Learning gives you creativity. Creativity leads to thinking" - Former President Dr APJ Abdul Kalam, made his address to a group of rivetted 13-year-olds as he inaugurated the Parikrma Festival of Science. "I see a large number of science students here and I would like to ask you a question. What is unique about being a scientist? Science gives you better eyes because it removes mental limitations and gives your brain a challenge that you must solve." Prof. Balaram, former director, IISc talked about creating scientific temper.
